# A JOURNEY OF TRANSFORMATION

*With Dhwani Foundation*

Our journey with the Niranthara Saksham capacity-building programme came to a meaningful close with its final workshop. Looking back, this programme has been much more than a series of training sessions—it has been a journey of learning, reflection, and growth for our organisation.

Throughout the programme, we were encouraged to become more compliant, credible, and accountable in every aspect of our work. It helped us strengthen our internal systems, bring better structure to our management and day-to-day functions, and view organisational development with greater clarity.

Most importantly, the programme reminded us that an organisation stands strong on four essential pillars: its Governing Body, its beneficiaries, its donors, and its staff. Recognising the importance of each of these pillars has given us a renewed sense of purpose and responsibility.

We are deeply grateful to Dhwani Foundation for walking alongside us on this journey. The knowledge, guidance, and encouragement we received will continue to shape the way we work and serve our communities in the years ahead.
